## BATTLE LAKE'S NEW FLAME PLUM

This new plum (our own propagation) is being offered here for the first time. Fruit is a bright flaming red, contrasting beautifully with the glossy dark green leaves. The plum is very firm and tasty. A good keeper and shipper. Prof. Alderman of Minn. Fruit Farm emphasized these qualities of the New Flame Plum in a letter to us.

WINTER APPLE

**HARLSON**—A great big red apple originated by Minn. Fruit Breeding Farm that ranks tops in every way. Quality excellent. They keep in ordinary cool cellar all winter. The trees are rugged and hardy and free from fireblight. Does not form bad crotches. Hardy into Canada. Bears on young trees 2-3 years after planting.

SAPA BLUE PLUM SEE PAGE

**SAPA**—Similar to Okin with dark blood red juicy flesh. Makes a wonderful plum sauce. Limbs are annually loaded with fruit from ground to top. Plant close to Compass cherry for pollinizing.

NEW MINNESOTA

No. 700 Minjon

No. 700 — "The Minnesota Jonathan," called "Minjon." Medium size, rounded, very dark rich red color. Quality is good, regular cropper and fruit hangs well to tree.

## RASPBERRIES

EARLY LARGE ERICKSON APPLE

**ERICKSON**—A hardy standby. Ripens almost with the Duchess. Large and deep red color. Be sure to include this one.

**WHITNEY**—One of largest crabs grown. Very hardy, dependable yielder, good for sauce or jam or eating fresh. Ripens in later August.

Well Rooted Trees

Winthrop, Minn. — I have had very good results from the trees, over 100 all together, Cherry, Plum and Apple, that I purchased from you the last couple years. Have had some fruit on them the last two years. Yours truly, Martin H.K.

**RED LATHAM**—The most popular red raspberry in the U.S. today. Firm large size.

**TAYLOR**—Little earlier than Latham. The berries are somewhat longer. Easy to pick. A good red New York variety.

**NEWBURN**—Large firm and rather dry texture which makes it a good commercial variety. Holds color well, even though rip for few days. Season same as Latham.
